THAT INJUNCTION.

Close of the Argument of Counsel in the Cotton-Spere Injunction Case, on the Motion to Dissolve the Injunction Granted by Judge Galloway.

NYesterday morning, at the opening of the court, Judge Wm. S. Flippin moved the court to take from the files the bill of the State board of health, being the same presented to Chancellor Livingston at Browns ville. This the State board lawyers designated as an exhibit to their answer. The notice served on Speers was to dissolve the injunction on the bill and answer, said Judge Fippin, but here we have a bill and answer and another independent bill under the guise of an exhibit; that such exhibits did not conform to the rules of chancery practice; that the pleading was doubtful and uncertain, and might, as it had been filed as a separate bill, be construed as a cross-bill in this cause, or something of that sort, to which they had a right to make answer. The court during the progress of the argument so ordered, and Judge Wright's forty-four pages was Judge Wright's forty-four pages went out.

Judge Flippin then resumed the argument,
contending for the legality of Galloway's
election and his right to issue a flat. He then north Mississippi and 10 from north Alabama. Average date September 29th. Very adverted to the act of 1879, contending that the powers of the board were strictly for quarantine purposes, and that was the intent of the act. That they, the board, had ex-

then applied for an injunction on the same bill as that presented to Judge Livingston at Brownsville. After some lively sparring between him and Judge Flippin, the court refused the injunction, saying he did not think the bill made out a proper case. His mind the bill made out a proper case. His mind was perfectly satisfied on that point. Judge Wright proffered to produce authority, when Judge Flippin asked that if Judge Wright did as he suggested, he would like to have the privilege of furnishing to the court counter authorities. This the judge promised he should have the privilege of doing in case his mind was moved by Judge Wright's authorities.

The court then adjourned to Saturday afernoon, at two o'clock, at same place. Mr. James Lewis, the deputy county clerk, being present, Judge Eldridge opened the probate court and adjourned it over to Satur-

lay afternoon next, at two o'clock. RIVER NEWS.

change, Etc. MEMPHIS COTTON EXCHANGE, MEMPHIS, TENN., October 9, 1879. Fo the President and Board of Directors: GENTLEMEN-The disorganized condition f our mail facilities at the close of July and August, owing to quarantine, prevented the issuance of crop reports for those months. Realizing the importance of our district o the cotton-growing region being faithfully represented in the crop reports now going forward to the manufacturing world, in the absence of the proper committee, your secretary has deemed it incumbent upon him to afford this facility. On September 23d he mailed the usual number of crop inquirie adopted by the National cotton exchange. Those destined for the State of Arkansas, in number, were placed in the St. Louis mail, to be distributed at that point. Most remarkable to say, after a lapse of sixteen days, not one response to those inquiries have been reseived. Consequently the report now pre-sented does not include that from Arkansas. It is derived from 71 responses to inquiries, dated and mailed September 22d, to-wit: Thirty-eight from West Tennessee, 23 from

Diseases of the Throat and Lungs. Diseases of the pulmo-

drugs, chemically united, to insure the greatest possible efficiency and uniformity of results, which enables physicians as well as invalids to use it with confidence. It is the most reliable remedy for diseases of the throat and lungs that science has produced. It strikes at the foundation of all pulmonary diseases, affording prompt and certain relief, and is adapted to patients of any age or cither sex. Being very palatable, the youngest children take it without difficulty. In the treatment of ordinary Coughs, Colds, Sore Throat, Bronchitts, Influenza, Clergyman's Sore Throat, Asthma, Croup, and Catarrh, the effects of Ayer's Cherry Protoral are magical, and multitudes are annually preserved from serious illness by its timely and faithful use. It should be kept at hand in every household, for the protection it affords in sudden attacks. In Whooping-cough and Consumption there is no other remedy so efficacious, soothing, and helpful.

The marvellous cures which AYER'S CHERRY PECTORAL has effected all over the world are a sufficient guaranty that it will continue to produce the best results. An impartial trial will convince the most sceptical of its wonderful curative powers, as well as of its superiority over all other preparations for pulmonary complaints.

Eminent physicians in all parts of the country, knowing its composition, recom-mend Aver's Cherry Pectoral to invalids, and prescribe it in their practice. The test of half a century has proved its absolute certainty to cure all pulmonary complaints not already beyond the reach of human aid. Prepared by Dr. J. C. WHOLESALE GROCERS,

DESPECTFULLY announce that their NEW ACADEMY, which was finished last June, will be opened for the reception of pupils as soon as the health of the city permits. Almost every arrangement has been completed for the comfort of those who may be committed to their care, and the Sisters hope that the perfect renovation of every portion of the building and the thorough draining of the grounds during the past year, added to the fact that no case of fever or any disease whatever has occurred there, will be a sufficient guarantee to their friends and patrons of the healthfulness of the place, after the present season of danger shall have Cotton Factors and Commission Mercha No. 258 Front street.
